KNOWN INCOMPATIBLE MODS:

- Multi Traffic Mod : <http://ets2.lt/multi-traffic-mod/>
- Trucksim Map 4.0 Justplay Mod : <http://ets2.lt/en/trucksim-map-4-0-justplay-mod/>

both this mods contains early version of Trailer Pack with Realistic Textures (version 1.4.1)

what makes this both mods incompatible

DESCRIPTION

1. This mod not only replace a texture of selected trailers, but also expands the number of liveries available on them. Once installed, we get new unique liveries for trailers:

Aerodynamic (7 liveries)

Krone Coolliner (56 liveries),

Krone Profiliner (63 liveries),

Schmitz S.PR Universal (23 liveries),

fuel tankers (11 liveries),

cisterns for food products (7 liveries)

cisterns for chemical products (4 liveries)

silo-trailers on bulk materials (6 liveries)

glass transporter (6 liveries)

trailer with container 20ft (15 liveries)

trailer with twin container 20ft (12 liveries)

trailer with container 40ft (12 liveries)

- providing a total of 219 unique liveries - all of them will be available in Euro Truck Simulator II !.

2. Adds a changes in traffic, including, in adding new cargoes visible on the road,

Full list of liveries available in this package, can be seen here: <http://ets2.freevar.com/>

INSTALATION:

1. Unpack the archive file
2. Copy file with .scs extension into game's mod directory
3. Run Euro Truck Simulator 2
4. Select the profile which you want to use with this mod, and then click the Edit button.
5. On the list of active mods select as inactive the previous version of this modification (if it was used), and then select a new version as active. Click the Apply button.
6. Again, select the profile and run it. You should receive a message that saved game uses a modification that is no longer available. Accept by clicking Yes.
7. If the profile launch properly, everything goes correctly, if not try to repeat the previous steps.
8. After leaving the game, you can remove the previous version from game's mod directory (if it was used). Previous version is no longer required.
